1. ProfitStream Advisor

There are a lot of "Martingale"-based systems in Internet, but most of them just make you loose the deposit. ProfitStream Advisor is one of the best well-known systems that uses the technology of doubling lots without any harm to your deposit! By combining several revolutionary ideas of money management and protection techniques, ProfitStream Advisor is able to generate you stable and risk-free growth of your deposit.

ProfitStream fixes your profit very often to prevent any serious drawdowns. So you can get good income every single day! This system is really unique. You wont get unrealisting returns here but you will be able to generate good stable income on daily basis!

Parameters

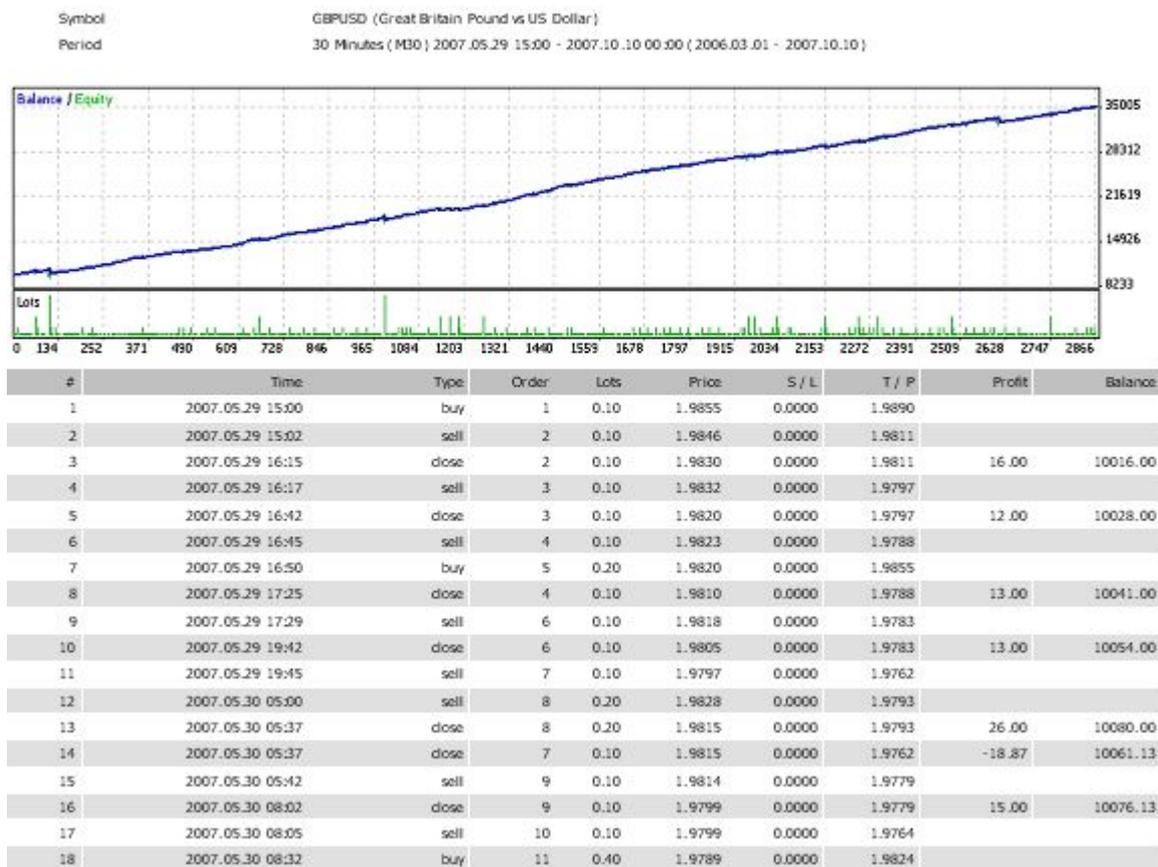

Default starting 0.1 lot

TakeProfit = 10;

Step = 30; step to open additional orders

Slippage=3;

ProfitStreamAdvisor

2. StrongTrend Advisor

StrongTrend Advisor is based on the idea of finding strong trend for each currency. If StrongTrend Advisor detects good trend it instantly opens the trades to take maximum profit for you! The amount of lots is calculated according to new system of Money Management. When StrongTrend Advisor reaches maximum profit it closes the trades and waits for next strong trend. The best results are shown for EURUSD and EURJPY pairs.

We recommend to use spread 2 pips on EURUSD and 3 pips for EURJPY or less!

Parameters

StopLoss = 74;

TakeProfit = 14;

Slippage = 5;

LotIncreaseRatio = 0.21 Rate of lot increase

MaximumTrades = 4; Maximum of opened orders

TakePips = 9;

FixLotMM=false; that means money management = on

FixLotSize=0.1; if money management is off then it uses this number of lots

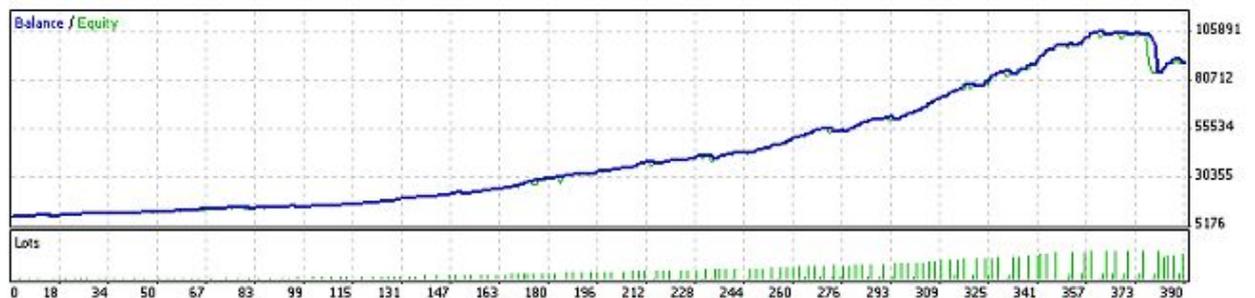

RiskPercent=10; RiskPercent if money management is on

MA_Period = 32; indicator parameter

DeltaMA = 2.04;

6. ScalperPilot Advisor

This system is based on the "Recoil of the price" technique. Revolutionary math algorithms allow to detect the correct entry point to get the maximum profit of every Recoil of the price. Depending of the strength of the recoil, this advisor calculates the best values of StopLoss and TakeProfit to receive maximum profit of each trade. New money management system that was included into the ScalperPilot Advisor allows to increase your deposit in short time and minimize all losses!

Parameters

MinPrfofit= 1; Minimum level of taking profit.
 MaxLoss= 10; Maximum level of taking loss.
 Delta= 3;
 BB_Period= 1; Indicator parameter
 BB_Deviation= 2;
 FixLotMM=false; when FixLotMM=false money management is on
 FixLotSize=0.1; Lot size when FixLotMM=true.
 RiskPercent=10; Lot size when FixLotMM=true.
 Slippage=2;
 MN=2409; Unique number
